ZARQ

PARTNER PACK · 2026

PARTNER WITH ZARQ

Invest in young people's digital futures.

Zarq gives young people in Matatiele, Eastern Cape, access to technology, practical skills, real projects and mentorship, funded in part by our own technology services.

Youth technology programmes

Zarq Digital services

THE NEED

Talent is everywhere. Access isn't.

In the Eastern Cape, many young people grow up without a computer at home or reliable internet, and leave school into one of the toughest job markets in the country.

47.4%

of young South Africans aged 15–34 are unemployed

STATS SA, QUARTERLY LABOUR FORCE SURVEY, Q2 2026

13.3%

of Eastern Cape households own a computer

STATS SA, CENSUS 2022

34.3%

of Eastern Cape households have no internet access

STATS SA, CENSUS 2022

7.3%

of adults in Matatiele hold a higher education qualification

STATS SA, CENSUS 2022

OUR VISION

A future where a young person's location or access to technology does not determine their ability to participate in the digital economy.

OUR MISSION

To give young people, especially those from underserved communities, access to digital tools, practical technology education, mentorship and opportunities to build solutions that shape their futures.

OUR APPROACH

A pathway from access to opportunity.

Each stage builds on the last, so support doesn't stop at a one-off workshop.

01
ACCESS
Devices, connectivity and a place to learn.

02
LEARN
Practical digital, AI and technology skills.

03
BUILD
Real projects that become a portfolio.

04
INNOVATE
Solving problems that matter locally.

05
OPPORTUNITY
Education, work and entrepreneurship.

PROGRAMMES

Zarq Academy

Structured, practical technology education: digital and AI literacy, coding, app and web development, UI/UX, cybersecurity awareness and entrepreneurship.

Learner tracks

Juniors for younger learners, **Youth** for skills, projects and mentorship, and **Future** for careers and entrepreneurship.

Labs, Robotics & STEM, and Zarq Hub

Hands-on project-building and STEM, and a dedicated technology space coming to Matatiele.

OUR VISION FOR A ZARQ CLASS

AI-generated illustration of our vision. Not a recording of a real class.

WHY ZARQ

- **Practical, not theoretical.** Learners build real projects and portfolios.
- **Rooted where the need is.** Based in Matatiele, shaped by the community.
- **Built to last.** Zarq Digital revenue means programmes don't rely on donations alone.

WAYS TO SUPPORT

What your support makes possible.

Choose a focus, or combine them. We'll put together a clear plan and budget with you.

01

Connect a learning space

Uncapped internet for a Zarq learning space, so learners can research, code and build online.

02

Equip a learner

A refurbished business-grade laptop with warranty, for class and project work.

03

Build the device bank

A shared bank of laptops for programmes, towards our first-year goal of 5–10 devices.

04

Sponsor a cohort

Fund a full programme intake: learning, materials, mentorship and project work.

05

Founding partner of Zarq Hub

Help establish a dedicated technology space in Matatiele, with naming and recognition opportunities.

SUPPORT IN KIND

- Donate working laptops or tablets
- Sponsor data or connectivity
- Offer venue space
- Volunteer staff as mentors or guest speakers

WHAT PARTNERS RECEIVE

Quarterly impact reports

Progress against our goals, with stories and project work.

Recognition

On our website and social media, with your approval.

Staff engagement

Mentoring, guest talks and volunteering.

Site visits

See programmes in action and meet the learners.

A say in the work

Help shape programmes to meet real needs.

ACCOUNTABILITY

Your support goes to programmes. We show you how.

Partner funding is kept separate from Zarq Digital's commercial income and used for the programme it was given for. Every quarter, partners receive a report against these measures.

WHAT WE REPORT ON

- Young people reached
- Programme completions
- Technology projects built
- Mentorship sessions held
- Devices made available
- School and community partnerships
- Career exposure and opportunities

HOW ZARQ SUSTAINS ITSELF

01 Zarq Digital earns revenue

02 Revenue and partnerships fund infrastructure

03 Infrastructure powers youth programmes

04 Young people become technology creators

05 Projects and portfolios open opportunities

06 Employment and entrepreneurship follow

↻ AND THE CYCLE CONTINUES

OUR GOALS FOR THE FIRST YEAR OF PROGRAMMES

30–50 young people reached	20–40 programme completions	15+ technology projects
20+ mentorship sessions	4+ community workshops	5–10 devices made available
2–3 school or community partnerships	20+ young people with career exposure	2–5 paid or part-time opportunities

MEET THE FOUNDER

Lesedi Siyaya

Founder, Zarq

Lesedi holds a BSc in Information Technology and brings business analysis experience, translating business needs into practical technology solutions. Her work spans websites, applications, UI/UX, digital products and AI.

She founded Zarq to give young people in her community the access, skills and opportunities that turn digital ability into a future.

LET'S BUILD THIS TOGETHER

Start a partnership conversation.

Tell us what matters to your organisation. We'll come back with options, a budget and a clear plan for reporting.
